

## HOW TO MAKE CLAY

### Great for Sensory Play

#### What you need:

-  1 cup of school glue
-  1 cup of cornflour
-  Bowl
-  Rolling Pin
-  Shape cutters *(optional)*
-  Paint *(optional)*

#### What to do:

##### Method:

- In a bowl mix the glue and cornflour together
- This should come out in a dough consistency.
- Roll out and you can then cut out shapes. Allow to dry and paint.

**Tip:** make a small hole in the top of your shape whilst clay is still damp, once dry and painted, thread through string to make a hanging decoration.

**Tip:** Press your child's hand in the wet clay, this makes a lovely keepsake / gift.
